## 1. Untuk menghubungkan

The screenshot shows the Visual Studio Code editor with the 'config.php' file open. The file contains the following PHP code:

```
1 <?php
2
3 $databaseHost = 'localhost';
4 $databaseName = 'crud_db';
5 $databaseUsername = 'root';
6 $databasePassword = '';
7
8 $mysql = mysqli_connect($databaseHost, $databaseUsername, $databasePassword, $databaseName);
9
10 ?>
```

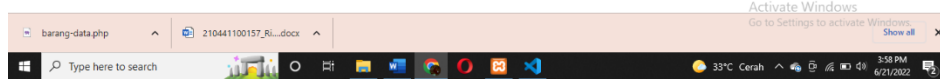

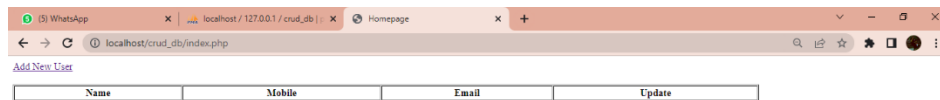

The Explorer sidebar on the left shows the project structure with files: crud\_db, add.php, config.php, delete.php, edit.php, and index.php. The status bar at the bottom indicates the file is in UTF-8 encoding with CRLF line endings.
